Hagenbuch Hydraulic Systems AG

Being a family-run company with 60 years of history, we supply and support you with whatever you need in terms of hydraulic drive technology. From special hydraulic components and customized cylinders and aggregates all the way to complete hydraulic drive systems including control, software and process controlling. Our proprietary hydraulic specialists work out individual customized solutions even for complex challenges, deliver all components from a single source and put them into service all over the world. Hagenbuch stands for high quality standards and offers a broad range, high precision and first-class services.

Service-Center - your partner in hydraulics

Our efficient and innovative Service Center-team provides you with all kinds of products and services required in the sector of oil hydraulics - from individual all the way to full services. Our range also comprises reliable and comprehensive consulting as well as a broad range of services like:

- **cylinder repair**
- **hose shop in Ebikon - broad range of hoses and fixtures**
- **rental equipment**
- **service-team - manpower available also at your premises**

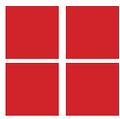

Full service for hydraulic cylinders

- **customized production and repair**
- **service & maintenance**
- **assembly & disassembly**

Cylinder revisions are done quickly and professionally by our Hagenbuch service team. We exclusively use flawless high-quality parts so that revised cylinders will be fully functional again. Your benefit: you save money and your cylinders are in mint condition again - guaranteed.

Our production hall has been equipped with state-of-the-art CNC-controlled lathes and cutters and with common repair and conversion machinery. Moreover, we've got a large raw material store. All of this ensures we can respond quickly and reproduce defective components by sample.
